Rob,
Please verify the report is Good....then Lisa will post once you give the OK.

Thank You.

Subject: error needs fixing in GHG report

All,

Honda found an error in Table B-1 of the GHG report, large enough to want to fix. Basically all the sales volumes are shifted one model year away from the table headings (headings are correct, values don't match model year headings).

I created this problem when I decided to not put 2012-2015 sales in the table and limit it to the last 3 model years instead. Obviously something went wrong when I lopped out the 2012 data.

I have attached a new page to replace Table B-1 (page 79).

Let me know if there's anything else I need to do, and thank you for your help up to this point as well.

Rob
